Motel 6 Renews Partnership with Hotels4Truckers.com

Dallas, Texas (February 25, 2013) – Motel 6 has renewed its partnership with Hotels4Truckers.com, offering the site's members a ten percent discount on Motel 6 room reservations through February 28, 2014. With 1,100 properties across the United States and Canada, Hotels4Truckers.com members can find nearly 200 locations that are clean and comfortable with plenty of space to park their 75' long oversized vehicles, at the lowest price of any national lodging chain.

"Motel 6 is pleased to extend our great relationship with Hotels4Truckers and continue making our comfortable accommodations even more affordable for trucking industry professionals," said Jim Amorosa, CEO of G6 Hospitality, parent company of Motel 6 and Studio 6. "Hard-working truckers need a clean, comfortable place to rest and enough room to park their 75-foot trailers – we're happy to provide both at many of our locations."

Hotels4Truckers.com was launched in January 2011, by Dan Fuller, a trucking industry veteran determined to help fellow truckers enjoy more comfortable lifestyles while improving the image of the trucking industry as a whole. The Web site, www.Hotels4Truckers.com, allows members to perform nationwide searches by city, state and zip code in order to locate nearby hotels capable of accommodating 75' long tractor-trailers. Members gain access to corporate hotel chain discounts and special trucker rates listed by individual participating hotels. In addition to semi-truck drivers, the site is useful to bus drivers, construction workers, and families moving in large rental vehicles or traveling with an extra trailer or boat.

"We are equally pleased and excited to extend our partnership with Motel 6 and offer our members great discounts across their network", said Dan Fuller, founder and president of Hotels4Truckers. "Our nation's truckers are always looking for ways to save time and their hard earned money, and we look forward to helping them do that through our partnership with Motel 6".
